

"PASSPORT TO WEATHER AND CLIMATE" and the "LIVE FROM THE STORM" specials are made possible, in part, by support from NOAA, the National Oceanic and Atmospheric Administration, through the Office of Oceanic and Atmospheric Research (OAR), the National Weather Service (NWS), and the National Environmental Satellite, Data, and Information Service, (NESDIS.)

Additional support comes from UCAR, the University Corporation for Atmospheric Research, and from NASA, through its Education Division and the Earth Science Enterprise.

Support for streaming video comes from IBM and Avid Technologies. The project also gratefully acknowledges the cooperation of USA Today, Jack Williams and Chris Cappella.
